FINE ESTATES
MALLORCA

On the first floor there is a large entrance hall, a small kitchen and a living-dining room, on the second floor there are several bedrooms, a dressing room and a bathroom, all very bright, with unobstructed views. On the other side is the older part of the property, which is in its original state and could be completely renovated, with plenty of space to adapt the house to our needs. A beautiful porch, originally paved and well preserved, precedes our garden, where we also have a juice pond, also known as a water pond. There is a large swimming pool, town water and Gesa stream. The access to the finca is very private.
