SPECTACULAR VILLA WITH BREATHTAKING VIEW IN PORT D'ANDRTX

This seagull villa opens up it's wings and invites all guests to enjoy the nearby warm mediterranean sea. Sensual shapes are combined in harmony with the environment. You enter the property by the tail, with sleeping areas at the edge of the wings, the central area where the living space is located and the head of the seagull being a spacious area open to the sea and the Island's coast. The house is streamline with shapes, walls, ceilings, rooms and terraces elegantly merging together. A space to enjoy year round.
